Val de Loire
FRANCE

Two centuries after having opened to the public, Chambord remains one of the most awe-inspiring Renaissance constructions, arousing admiration and fascination throughout the world. Far from serving as a residential palace or a mere hunting lodge, the chateau is a stupendous work of art; imagined by King François I and inspired by Leonardo da Vinci, it has yet to divulge its innermost secrets.

Girded by a 32-kilometer (20-mile) enclosure wall, its 5440-hectare (13400-acre) park contains seemingly innumerable hidden pathways, pristine landscapes, and an exceptionally wide-ranging array of fauna and flora.

Whether you are searching for nature, culture, local products or recreational facilities, Chambord offers a multitude of activities in the chateau or the open air, to be enjoyed in a group, as a family or with friends, unaccompanied or escorted by an enthusiastic guide. Not to mention a copious program of cultural events that punctuates the seasons...

- **Registered since 1981 as a UNESCO world heritage site**
 - **Under two hours south of Paris**
 - **Open all year round*, 7 days a week**
 - **A collection of about 4 500 works and art pieces**
 - **Panoramic terraces**
 - **The largest wall-enclosed park in Europe**
 - **Food-producing and ornamental gardens: organic vegetable, French-style and English gardens**
 - **Horse and bird of prey show**
- * Except on January 1, the last Monday of November and December 25.

NEW ATTRACTIONS

GUIDED TOUR OF THE RESERVE IN A COACH

NEW
VERSION

In this new version of the visit by coach, the nature guide will take up, in addition to the history of the forest, a broad spectrum of local know-hows: forestry, animal husbandry, market gardening, vineyards ... and wild fauna. Chambord has reconnected with its agricultural and food-producing vocation. Step-by-step elaboration of Chambord products is detailed, and a tasting session is proposed. | *See page 15.*

THE CHILDREN'S LODGE: THREE NEW ROOMS FOR THE YOUNG PUBLIC

In this new area, families and the young public are invited to deepen their knowledge of Chambord, King François I and the Renaissance through sound experience, touch-screen terminals, manipulable installations and grandiose decors. A space for children's stimulation and relaxation is propitious to unconstrained construction and sensorial exploration.

Free access, 2nd floor of the chateau.

TASTING OF WINES AND CHAMBORD PRODUCTS IN SMALL GROUPS

The tasting of three local wines, including the red wine of Chambord (AOC Cheverny) and typical culinary specialties can now be carried out in small groups (15 persons maximum), in a private chateau room. | *See page 16.*

CHAMBORD, 1939-1945: "SAVING A LITTLE OF THE WORLD'S BEAUTY"

With the help of valuable archival documents, a new, four-room visitors' itinerary explains how, during World War II, Chambord was enlisted to protect masterpieces from French museums.

Two booklets, one for children and the other for their teachers, outline the steps of a theme-based tour.

CHAMBORD WINE

Just two kilometers (a little more than one mile) from the chateau, fourteen hectares (35 acres) of organic vines have been planted. Chambord has reconnected with its wine-growing tradition, fermenting its own wine by means of eco-certified agriculture, without cultivated yeast. The grapes are hand-harvested. Three wines are being produced: two whites (Romorantin and Sauvignon varietals) and one Cheverny red (Pinot noir and Gamay). They are on sale at the two gift shops and the on-line gift shop.

VISIT THE FOREST

THE LARGEST WALL-ENCLOSED PARK IN EUROPE

The National Estate of Chambord is enclosed by a 32-kilometer wall. The area covers 13,440 acres - the size of the city of Paris. It is home to an exceptionally rich variety of wildlife and is a shrine to France's natural heritage. Deer, wild boars and sheep, salamanders and no less than 150 species of birds or rare species of dragonflies, amphibians, chiropterans and insects cohabit with one another in this forest showpiece, registered in the NATURA 2000 network, of which the main objective is the preservation of biodiversity.

A thousand hectares (2500 acres) of forests, trails, prairies and moorlands are fully accessible to the public, while the private portion of the public may be discovered in the company of a guide in a coach or an all-terrain vehicle.
