# WHY SUPPORT CHAMBORD?

---

“Chambord, the Renaissance legacy to humanity, is much more than a chateau. It is an unprecedented, ingenious, almost fantastic work of art that symbolizes of the encounter between culture and nature.”

Pierre Dubreuil,  
Director of the Domaine national de Chambord

Chambord has aroused admiration and fascination to the world for over 500 years. Placed on France’s first list of historical monuments in 1840, and a UNESCO World Heritage Site since 1981, it is one of the most breathtaking construction of the Renaissance. Far from being a residential palace or a hunting lodge, Chambord embodies the values of humanism, inventiveness and human genius.

Preserving this heritage means constantly questioning how it can be made accessible to the widest possible audience.

With this objective in mind, each year, new developments and innovative projects are presented to visitors, a rich program of cultural events punctuates the life of the estate, and ecological actions are implemented. The estate is also developing a strategy to diversify its own resources.

Many of these projects are often made possible with the support of our patrons.

## CHAMBORD’S PROJECTS ARE STRUCTURED AROUND FOUR DEVELOPMENT PRIORITIES:

- Youth
- Ecological Transition
- Heritage
- Tourism and Culture

# SUPPORT CHAMBORD AND JOIN ITS AMBITIOUS PROJECT

---

By supporting Chambord, sponsors contribute to the restoration of a historic monument and to the conservation of the French and human heritage. For companies as well as individuals, sponsorship represents a unique occasion to associate themselves with the evolution of one of the masterpieces of humanity and to follow in the footsteps of the great patrons of heritage and art.

Being a Chambord patron means preserving this gem and being active in its influence by supporting major projects.

As thanks for its patrons' support, the Domaine national de Chambord offers the opportunity to benefit from incomparable experiences tailored to each of its patrons. These bespoke and customised proposals are grouped into themes and include the best that Chambord has to offer.

Donating to Chambord allows tax deductions which depend on the donor's country of residence (research can be conducted according to country, on a case-by-case basis).

## EUROPE: TRANSNATIONAL GIVING EUROPE

The TGE system enables European private and corporate donors to make a donation

to the Domaine national de Chambord, whilst benefitting from applicable tax deductions in their country of residence.

## UNITED STATES: MYRIAD USA

(former King Baudouin Foundation US) enables American private and corporate

donors to support the Domaine national de Chambord whilst benefitting from the tax advantages provided for by US law.
